

Want to view Calibration Certificates on your mobile device?

With Eurotherm's eCAT Calibrations you can!

With Eurotherm's eCAT all instruments are left with a QR code calibration label

Select your favourite QR reader. Eurotherm recommends "QR Reader"

Scan the QR code on the label

EOS will then prompt as follows. Enter the first four characters of the serial number from the calibration label and then select **Submit**

EOS will then display your calibration certificate on your phone or tablet

Let Eurotherm take care of your accreditation status with EOS and eCAT.

Please email us to discuss your requirements or to obtain further information.
adminsUPPORT.eurotherm.uk@schneider-electric.com

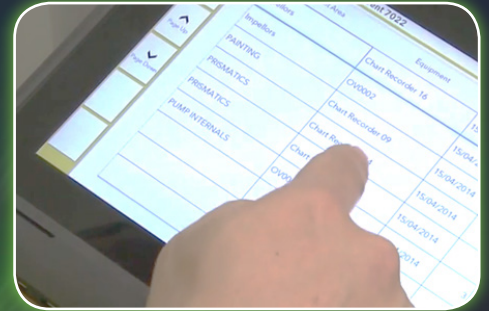

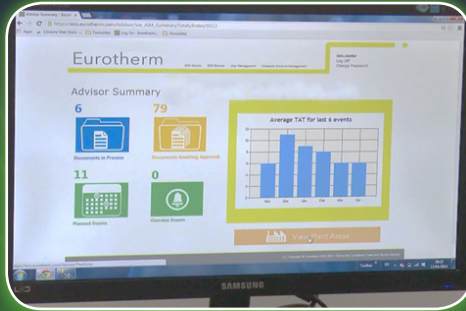

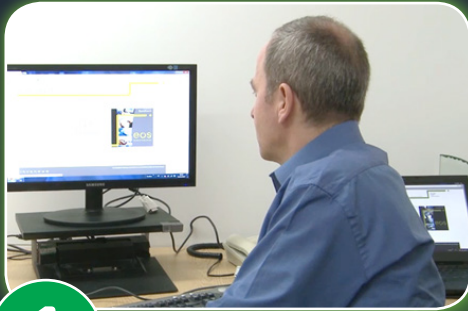

Try this for yourself (Scan Label at Top and Enter **PL12**)
