

Product End of Life Instructions

3204 (Temperature/Process Controller)

3200 and Piccolo series controllers and indicators

Life Is n

Eurotherm.
by **Schneider** Electric

Potential disassembly risks

No specific disassembly risks have been Identified for this product.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	102	The area of the LCD on the third board is slight under the size requiring depolution. The mass of the LCD (~40g) is not included in the listed PCB mass.
To be depolluted	2	Plastic parts with brominated flame retardants	180	mass includes the 15% brominated flame retardant

Product description

Manufacturer identification	Eurotherm
Brand name	Eurotherm
Product function	A highly versatile and configurable controller able to take a wide range of input types such as TC, RTD, mV, mA, CT and Voltage. Utilizing PID control, together with timers, maths and logic functions accurate control is achieved of relay, logic (SSR drive), DC and triac outputs.
Product reference	3204

Total representative product mass	440.76g
Representative product dimensions	96mm x 96mm x 159mm
Accessories	N/A
Date of information release	12/2016

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
In case of special transportation: transportation method	N/A	
Recyclability potential	16%	Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).
